

Internal Quality Auditor Workshop

In this 2-day workshop, participants will learn how to conduct internal quality management system (QMS) audits using the process approach. This value-adding approach is also required by the ISO 9001 standard. Audit examples / exercises will be given. ISO 9001:2008 requirements are reviewed with relevant audit implication – with a preview of upcoming revision of 2015 . The second day is all practice – conducting actual audits to ensure that auditors are qualified.

Who Should Attend?

All associates involved in the internal quality management system (QMS) auditing program.
